Dear Reader,

On behalf of the ANNA Board and Management team we are pleased to welcome you to our spring newsletter. This edition is particularly poignant, as we celebrate a big milestone, our own 30-year anniversary!

At the heart of ANNA are the member National Numbering Agencies (NNAs), responsible for ISIN, FISN and CFI assignment and maintenance, who are the local market experts in their jurisdictions. With +82 million ISINs and related information on file, together with NNAs, ANNA is helping to harmonise financial standards. We would like to thank all those who have been part of ANNA over the years, working to reduce the time, cost and risk of cross-border transactions through improving global interoperability using financial standards. We hope you enjoy this special anniversary issue.

Best wishes,
Claudio Garin
Treasurer, ANNA

ANNA Joins Digital Euro Association (DEA) as an Institutional Member

The [Digital Euro Association](#) is a think tank specialising in crypto assets, stablecoins, central bank digital currencies (CBDC), and other forms of digital money. Their mission is to contribute to the public and political discourse through research, education, and by providing a platform for discussion between policy-makers, technologists, and economists.

Revision of the FISN standard

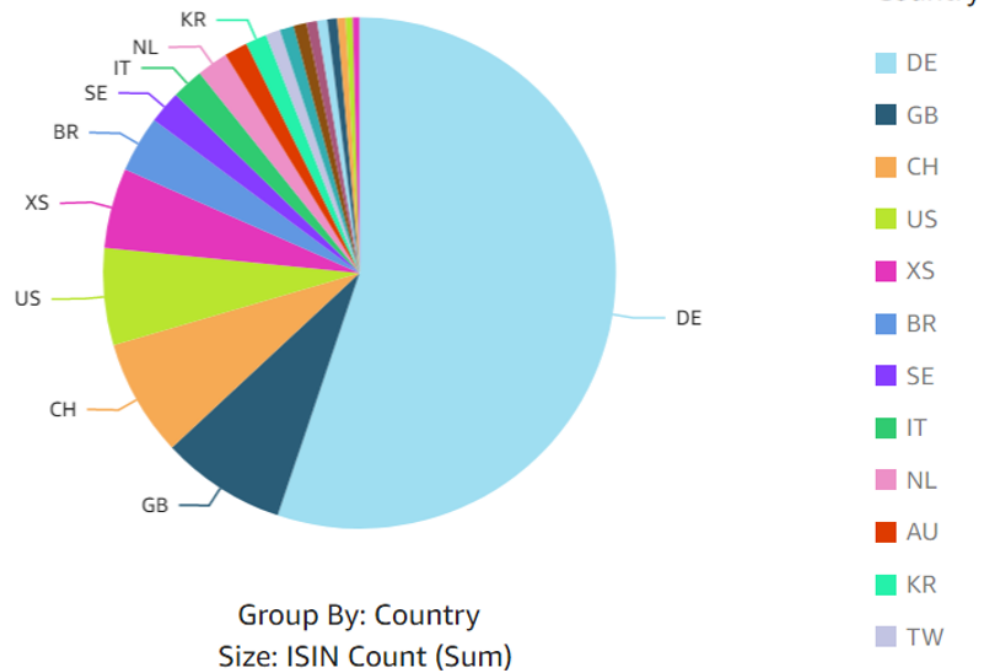

Upon assessment of the received comments during the voting process, it was decided to revise ISO Standard 18774 (FISN – Financial Instrument Short Name) and to set-up the Working Group. Following a call for experts, the new ISO TC68/SC8/WG10 started its work in January under the convenorship of Uwe Meyer (Germany). After review of the comments, the experts will look at the general structure of the current standard version followed by the major part to close gaps with regards to potentially missing asset classes (e.g. OTC Derivatives) currently covered in ISO 6166 (ISIN) as well as in ISO 10962 (CFI). It is expected that the work of the WG10 will take place over the next 24 months which is likely to be shorter.
