Dear Reader,

On behalf of the ANNA Board and Management team we are pleased to welcome you back to our newsletter. This edition is full of exciting news in the world of digital asset identifiers!

First, we are very excited to announce that we have partnered with Etrading Software’s Digital Token Identifier Foundation to establish a task force on digital assets as well as to identify the synergies between ISIN and DTI.

In this edition, we also highlight our own work on digital asset identifiers, and news on the revision of the ISO 6166 standard. We take a closer look at some of our ANNA members who, as National Numbering Agencies (NNAs), are at the heart of ANNA and work hard to drive standards globally. Additionally, we are delighted to introduce the newly elected and re-elected board members.

Please do get in touch through the usual channels to share your thoughts and comments with us.

Best wishes,
Laura Stanley
ANNA Marketing Director

Looking Ahead

ANNA Service Bureau (ASB) infrastructure upgrade
The scheduled upgrade of the ANNA Service Bureau (ASB) infrastructure is on target for delivery in September 2021. In addition to migration of the system to a cloud infrastructure, the enhancements will include new data validations, enhanced file processing, new platform design, increased functionality and reporting for National Numbering Agencies (NNA).

ISO 6166:2021 publication and associated implementation planning
The ISO 6166:2021 revised standard was published on 2nd February 2021. The timeline and roadmap for implementation by National Numbering Agencies and the ANNA Service Bureau is currently being determined by the ANNA Board. An update will be provided to industry stakeholders once the implementation roadmap is confirmed.
